

Plastic Pollution

Identify three objects you use which are made of plastic:

decompose
pollution
toxic
microbeads

biodegradable
global warming gases
landfill sites
poisonous

Write three positive statements about plastics.

Write three problems caused by plastics.

Explain two ways people can make changes to help the environment.

Plastic Pollution

Identify five uses for plastic and explain why plastic is a suitable material for those objects.

Explain how the manufacture of plastics is a concern.

What effect do plastics have on the environment?

What can be done to improve the situation?

Plastic Pollution

Write a letter to your MP about the use of plastics and the effect they have on the environment. Remember to include:

- an introduction setting out the purpose of your letter;
- details which are organised into paragraphs;
- a conclusion stating what you believe should happen next;
- the use of formal language and vocabulary choices.

Introduction

Paragraph 2

Paragraph 3

Conclusion

Yours sincerely,
